NURSES FOR POOR

U. and I. Club Takes Steps to Alleviate Suffering.

Will Visit Sick and Instruct in Sanitation.

ENLARGE THE SCOPE.

Purpose to Help the Provident Association.

Visiting Nurses Department Established by Mrs. Thomas.

A visiting trained nurse who will go into the homes of the poor, care for their sick and teach them what she can to improve the sanitary conditions in their houses, will be employed this winter by the U and I club, the local organization of society women which is an important factor in local charity work and has done so much to assist the Provident association in the help of the needy. The club at a meeting Tuesday voted unanimously to take up the work of the visiting nurse's department of the Provident association and give the proceeds of the charity card party, which the club will give at Steinberg's Thursday afternoon, for this purpose.

The visiting nurse's department of the Provident association work was started about a year ago largely through the efforts of Mrs. Charles Brooks Thomas who endowed it generously and enlisted the help of others in the work. Last week the work was carried on entirely by Mrs. Thomas, Mrs. W. B. Swan, Miss Anna Harrison and two professional nurses, Miss E. M. Smith and Miss Lola Pankey, who gave their services when they were not employed by their paying patients. A loan sick room and linen closet was established at the Provident association and furnished with bed linen, sick room appliances and attended baby clothes, night gowns and so forth which are loaned to their patients by the visiting nurses. Some idea of the scope and necessity of this work may be gathered from the statement that 625 calls were made by the department last year.

The ladies in charge of the work were greatly encouraged with the results. In addition to the relief offered sufferers from disease the sanitary conditions in the homes were greatly improved and they found the families they visited in most cases ready to take the instruction so sorely needed on these subjects.

The loan sick room at the Provident association is always ready to accept contributions of bed linen, towels, night robes, baby clothes, and other things the society that can be used in the visiting nurse's department and people who are willing to contribute to this department of the organized charity work of the city may have the satisfaction that their gifts are being used in the most efficient manner and that their contributions will go into hands capable of putting them to the best use.

The U. and I. club will employ a professional nurse to give her whole time to the care of the sick in families unable to care for their own. Last year the work was done by two professional nurses who donated their services and could not give a great amount of time from their other patients and amateurs who had many other duties. But with a graduate nurse who thoroughly understands her profession and will devote her entire time to the work in addition to the amateurs who will continue their noble service the visiting nurse's department will be given a decided boost and ought to accomplish great good among the poor of Topeka this winter.

Shumberg, who will personally conduct this excursion, guarantees a running time of one hour and twenty-five minutes, leaving Topeka at 9 a. m. and arriving in Kansas City at 10:25 sharp. The Union Pacific Sunday excursions have been highly enjoyable to all who have attended them on account of the good management and fine equipment.

MONUMENT TO WERZ.

Subject of Discussion at Meeting of U. D. C.

Americus, Ga., Oct. 31.—At the annual meeting of the Georgia United Daughters of Confederacy today, a report of Mrs. A. B. Hull of Savannah, the president, who last year inaugurated the plan to erect a monument to Major Henry Werz, the Andromedite prison keeper, was read in which she speaks of opposition to the plan in some sections as follows:

"There was never any object undertaken by our society that has met with such widespread interest, such local support and such violent antagonism. The latter has taken the wildest form, indulged in the most insane abuse, not sparing in any wise the women of the Georgia division, or the south in general and we have answered never a word, but have simply gone and proved our case and mean to establish the truth forever, when we unveil our monument. A campaign of education it has very been for I do not believe any of us knew how ignorant we were of the history of that period until we went into this matter as we have been obliged to do in order to give an answer for the faith that was in us."

Mrs. Hull also recommends that a picture of Winnie Davis be placed in the dormitory of the Fabian state industrial school which is conducted by the daughters as a memorial to both Mrs. Jefferson Davis and the daughter of the confederacy.

BAPTISTS HAD TROUBLE

Their Anti-Hoch Resolutions Were Torn Down—Both Follows.

About 2 o'clock Tuesday afternoon, a party representing himself to be Rev. Arlington Wilson of Kansas City, called up the State Journal and informed this office that the state convention of negro Baptist ministers at Metropolitan hall had adopted resolutions condemning Governor Hoch and the Republican party.

Later developments show that it was not the Rev. Mr. Wilson who called up the State Journal office, and that the message must have come from some member of the faction which bolted the convention.

It seems that the convention which was attended by Baptist clergymen from all parts of the state, got into a row about political matters. A resolution was offered naming Governor Hoch and when it was defeated, and a milder resolution adopted, three of the ministers "bolted" and were followed out of the hall by Paul Jones and other anti-Hoch negroes. The bolters were Rev. Fairfax of Parsons, Rev. J. R. Richardson of Kansas City and Rev. H. W. White of Topeka.

The resolution which was really adopted by the convention by a vote of 35 to 3 was as follows:

"We as Republicans in the convention assembled declare for civil rights, justice and enforcement of law, just and equal rights to all. We condemn all laws placed on our statute books which discriminate against any of the citizens of the state. We stand for the true principles of Republicanism and we condemn as unworthy of our support any one who departs from these principles. Be it further

"Resolved, That we send a committee to wait upon the candidates of the Republican party or the state central committee and ask them to give us assurance that they will do all within their power to carry out the spirit of these resolutions."

Immediately after this, the convention adjourned, and a committee visited the headquarters of the Republican state central committee, where they conferred with the officers in charge, they announced that they were thoroughly satisfied with the attitude of the Republican party, and would advise the members of their respective congregations to vote the ticket straight.

The following is the committee which called at the headquarters of the state committee:

P. D. Skinner, J. H. Van Lue, J. W. Wilson, T. J. Carr, G. W. Harle, E. A. Wilson, T. R. Carter, C. G. Fleishback, Wm. Magg, George McNeal.

It was announced at Republican headquarters that one of the bolters, Rev. Fairfax of Parsons, had seen the error of his ways, and come around with a declaration that he would join in the majority movement.

The bolters went out and adopted the following resolutions:

"We, the Baptists here assembled, do denounce the enactment of laws that discriminate against the negro before a court of law. We denounce Governor Hoch for signing the same and we hereby pledge our support to any political party that will repeal all such laws and remove the statute books that so discriminate against us."

The will of John Plankinton, the founder of the family, provided that in the event that no heir was born before the death of the direct descendants, the hospital was to give his entire estate.

The direct heirs now living, besides the latest arrival, are Miss Elizabeth Plankinton, daughter of John Plankinton, and William Woods Plankinton, grandson.

Yesterday was the long wished for opportunity for the bashful men to unload their new overcoats on the public. Some who were less fortunate were wishing that they had one.

It is authoritatively stated that the free biograph show which will be given by the navy department of the government at the auditorium will be given on the evenings of November 2 and 3.

It seems to be a popular fad for all the different unions in town to post placards all over the city denouncing certain companies and asking the public to boycott the companies to whom they are opposed.

If you want the sensation of having joined a polar expedition all that need be done is to take a ride in the street cars in the early morning hours. The absence of any heat would cost the polar ice floes with frost.

Several bands of Washburn students are planning incursions to somebody's chicken yards tonight while such decorations are permissible under the rules of Halloween night. A good many of the boys are from the big Kansas farms where fried chicken is on the regular bill of fare and it is to satisfy the desires set by their home life that they are driven to such desperate measures.

The largest come backs were \$24,000 from the adjutant general, \$20,000 from the school for feeble minded youth, \$11,000 from the Parsons hospital and \$8,000 from the executive council. Nearly all of the departments had a small amount to turn back.
